

How much money did you make on Family Day?

With the new Range selection calendar added to all customer SolarVu SMART Enterprise accounts, you can now calculate performance of your solar PV portfolio for any time period. Select from over 30 parameters of interest and sort by any value. Access systems lifetime data to view, print a PDF report or download in CSV format for spreadsheet analysis.

Make money from your solar PV systems while spending quality time with your family on holiday. Nice !
